

定制船用-伸缩吊

Telescopic Boom Crane

本吊机为液压驱动，最大起吊能力为500吨·米。吊机可手动控制或有(无)线遥控，可根据用户要求定制，所用液压阀件均为国外知名品牌。

This crane is hydraulically driven, maximum capacity is 500T-M. The control can be either manual or wireless remote control. All hydraulic components used are from internationally renowned brand.

定制船用-折臂吊 Knuckle Boom Crane

This crane is hydraulically driven, maximum capacity is 500T-M.

本吊机为液压驱动，最大起吊能力为500吨·米。吊机可手动控制或有(无)线遥控，可根据用户要求定制，所用液压阀件均为国外知名品牌。The control can be either manual or wireless remote control. All hydraulic components used are from internationally renowned brand.

定制船用-伸缩臂吊

Hydraulic Telescopic Knuckle Crane

本吊机为液压驱动，吊机可手动控制或有(无)线遥控，可根据用户要求定制，所用液压阀件均为国外知名品牌。

This crane is hydraulically driven, The control can be either manual or wireless remote control, All hydraulic components used are from inter-nationally renowned brand.

定制船用-固定吊

Fixed Boom Crane

本吊机为液压驱动，最大起吊能力为600吨·米。吊机可手动控制或有(无)线遥控，可根据用户要求定制，所用液压阀件均为国外知名品牌。

This crane is hydraulically driven, maximum capacity is 600T-M. The control can be either manual or wireless remote control. All hydraulic components used are from internationally renowned brand.

定制船用-海工吊

Offshore cranes

本吊机可为液压或电动驱动，最大起吊能力为1800吨·米。吊机可手动控制或有(无)线遥控，可根据用户要求定制，所用液压阀件均为国外知名品牌。该设备用于海洋石油平台与工程船。

This crane can be driven by hydraulic or electric power, with a maximum lifting capacity of 1,800 ton-meters. The crane can be manually controlled or remotely operated by wired/wireless means, and can be customized according to user requirements. All hydraulic valves used are from well-known foreign brands. This equipment is used for offshore oil platforms and engineering vessels.

定制船用-克令吊

crane

本吊机为液压或电动驱动，最大起吊能力为1800吨·米。吊机可驾驶室手柄控制，可根据用户要求定制，所用液压阀件均为国外知名品牌。用于散货船、多用途船或货物过驳船。

This crane is hydraulically or electrically driven, with a maximum lifting capacity of 1,800 ton-meters. It can be controlled by cab levers and customized as per user requirements. All hydraulic valves adopted are from renowned foreign brands. The crane is applicable for bulk carriers, multi-purpose vessels, or cargo barges.

定制船厂-船坞吊

Dock cranes

本吊机可为液压或电动驱动，最大起吊能力为600吨·米。吊机可手动控制或有(无)线遥控，可根据用户要求定制，所用液压阀件均为国外知名品牌。次设备用于浮船坞。

This crane can be hydraulically or electrically driven, with a maximum lifting capacity of 600 ton-meters. It can be manually controlled or remotely operated by wired/wireless means, and can be customized according to user requirements. All hydraulic valves used are from well-known foreign brands. This equipment is applicable to floating docks.
